## Boarding Agreement

Aboite Animal Clinic is constantly striving to provide you and your pet the best care possible. In order to provide this care we have had to implement some changes in the way we provide care before and during boarding your animals with us. Below is a summary of these changes.

1. All animals must be current on vaccines. If vaccines are not current, we will automatically update these for you. We will also do an annual heart worm check if due. This will help insure the safety of your pet and other pets boarding with us.
2. We also now require that your animal be current for bordetella, also known as kennel cough. Again, this is to insure your pet a safe environment whilst among other animals.
3. We reserve the right to treat your animal for any medical conditions that may arise. This can range from simple flea or tick treatments to emergency situations.
4. Upon bringing your pet to be boarded with us, we will obtain an accurate weight. We will also require a number that you can be reached at in the event an emergency should arise.
5. You the owner agree to be responsible for all costs related with the care of your animal while boarding at Aboite Animal Clinic.

I, the client of Aboite Animal Clinic, have read the above changes in policy and agree to be financially responsible for boarding charges and any other care necessary. I also agree to give Aboite Animal Clinic a set date of return to pick up my pet. If any change in plans should occur. I will notify Aboite Animal Clinic to make any further arrangements. If I do not return to pick up my pet for three days after the said date of pick up and do not notify Aboite Animal Clinic of any change of plans, Aboite Animal Clinic can considered my pet abandoned and will take proper steps for the continued care of the animal.
